Sonitrol Security Systems
36528 Grand River #A2
Farmington Hills, MI. 48335
ATTN; Mr. Leo Wanstreet

January 14, 2003

Dear Mr. Wanstreet,

I want to personally thank you for the peace of mind your security system provides.

Over the years, my company has used other systems on various buildings and I must say that the Sonitrol System installed on our building in Troy is the best we have experienced.

One of my main concerns with our Troy building was the distance from my home and the amount of travel time involved if an alarm condition occurred.

By working with your staff, we have a security system in place that allows your central station and myself to remotely monitor any alarm condition and make "real" time decisions. This has eliminated un-necessary travel and false alarm police runs.

Again, thanks to you, your staff and your security system for being there when we can not.

Sincerely,

David G. Kosdrofsky,
President
