

# Papa Vinos

ITALIAN KITCHEN

Tim:

I would like to tell you about our experiences with Sonitrol. The installers during our construction did a wonderful job... always keeping their commitments and maintaining a clean job sight. The staff was very informative especially when it came to explaining the system and its different functions. The opportunities we encountered were swiftly dealt with in a professional manner that produced results.

This relationship with Sonitrol is my second experience with your company. At a previous location a retro fit of your system was installed. Again the staff was helpful and knowledgeable during the whole process. All opportunities were taken care of promptly the first time.

With these two positive experiences and the continued service we are receiving, I look forward to long and prosperous future. As our company expands you can count on us to call Sonitrol for our security needs.

Regards,

Michael Hrynewich  
General Manager
